PROFESSIONAL SUMMARY

AI-focused Data Analyst & Engineer with hands-on experience developing predictive models, deploying AI solutions in production, and integrating Large Language Models (LLMs). Holds an academic background from Bennett University (CGPA 9.0) in CSE Data Science with credentials from NUS Singapore (Deep Learning) and Amazon (AWS SageMaker). Proficient in Python, PyTorch, OpenAI APIs, OpenCV, and cloud-based AI deployment.

CORE AI & DATA SCIENCE SKILLS

Machine Learning & AI: Deep Learning, CNNs, Generative AI (LLMs, Whisper, GPT-4), Computer Vision, Feature Engineering, Supervised/Unsupervised Learning.

Frameworks & Tools: Python, PyTorch, OpenCV, Scikit-Learn, Matplotlib, OpenAI API, AWS SageMaker, SQL, Git, Linux.

Data & Analytics: Predictive Modeling, Data Preprocessing, Data Cleaning Pipelines, Power BI (PL-300 Certified).

Certifications: NVIDIA: Fundamentals of Accelerated Computing with CUDA Python | AWS SageMaker Program (NUS) | Harvard Modules | Microsoft PL-300.

PROFESSIONAL EXPERIENCE

FAATEH REAL ESTATE — **Dubai, UAE**
Business Data & Analytics Specialist (FTE) — *March 2024 – Present*

- Implemented predictive regression models using Python to forecast property yields and market trend variations, assisting management in data-driven decision making.
- Developed automated data-processing pipelines and workflow integrations, eliminating 20 hours per week of manual data wrangling.
- Spearheaded firm-wide database migration to ERPNext, implementing automated validation checks to ensure 100% data fidelity across legacy datasets.

NATIONAL UNIVERSITY OF SINGAPORE (NUS) — **Singapore**
Deep Learning Research Intern — *June 2023 – July 2023*

- Collaborated with NUS academic faculty to architect and train deep learning models targeted for predictive analytics in the education sector.
- Conducted comprehensive data preprocessing, normalization, and feature extraction pipelines, ensuring high-fidelity inputs for neural network architectures.

AMAZON / NUS AWS PROGRAM — **Singapore**
AWS Machine Learning Specialist — *June 2023 – July 2023*

- Trained and tuned scalable machine learning models using Amazon SageMaker, implementing automated model deployment endpoints within the AWS cloud ecosystem.
- Benchmarked model inference latency and configured cloud monitoring alerts to identify data distribution shifts in production.

DELOITTE — **Kolkata, India**
Analytics Intern — *July 2023 – October 2023*

- Leveraged Python statistical packages and Power BI to extract predictive business insights from complex multi-source client datasets for the Consulting Director.
- Built interactive data visualizations translating complex algorithmic outputs into accessible strategic summaries for corporate stakeholders.

AI & MACHINE LEARNING PROJECTS

IntervAI – AI-Driven Automated Mock Interview Platform — **OpenAI API, Python, React, WebRTC**

- Built a real-time speech-to-text pipeline using OpenAI Whisper and GPT-4 to generate dynamic, adaptive technical interview questions.
- Developed candidate assessment algorithms that evaluate speech sentiment, response latency, and technical keyword density, reducing manual screening time by 45%.

Forensic Counterfeit Image Detection Research — **Python, PyTorch, ResNet**

- Researched digital image forensics by training autoencoders and ResNet architectures to detect AI-generated and tampered images, achieving a 91% F1 classification score.
- Benchmarked detection performance across color filter array (CFA) interpolation anomalies and localized pixel inconsistencies.

TalentMetrics – Global Tech Labor & Fiscal Tax Arbitrage Engine — **React, Chart.js, Econometric Modeling, Python**

- Architected an interactive financial workbench analyzing P25/P50/P75/P90 compensation distributions across 7 global engineering tech hubs.
- Engineered a fiscal tax arbitrage model evaluating statutory personal income tax against prime rents, proving Dubai 0% tax net yield advantage.

EDUCATION

BENNETT UNIVERSITY — **Greater Noida, India**
Bachelor of Technology (B.Tech) in Computer Science & Engineering (Data Science) — CGPA: 9.0 / 10.0 — *October 2020 – July 2024*

Leadership: Event Head at GeeksforGeeks Bennett Chapter (led large-scale tech events & corporate partnerships); Project Management at Enactus.
