PROFESSIONAL EXPERIENCE

FAATEH REAL ESTATE — **Dubai, UAE**

Business Data & Finance Analyst (FTE) — ***March 2024 – Present***

- Engineered real-time budget variance analysis dashboards in Power BI, enabling senior management to monitor OPEX/CAPEX and identify 100% of cost-saving opportunities across portfolios.
- Led the end-to-end financial data migration from legacy accounting systems to a firm-wide Frappe/ERPNext system, guaranteeing 100% financial data integrity and halving month-end close latency.
- Programmed automated Python scripts to streamline complex daily bank reconciliations and multi-unit monthly forecasting, saving the finance department 20 hours of manual labor per week.
- Developed predictive financial models on property yields and revenue projections, delivering data-backed financial evaluations to guide senior executive investment decisions.
- Maintained consolidated financial reporting and performance balance metrics across multiple operating business units to ensure strict reporting compliance.

UC BERKELEY — **Remote**

Research & Financial Data Analyst Intern — ***January 2024 – March 2024***

- Advised academic project teams on large-scale analytical data management, financial integrity controls, and automated reporting software.
- Conducted quantitative evaluations across complex multi-variable datasets to support research deliverables and resource modeling.

DELOITTE — **Kolkata, India**

Strategic Consulting Analyst Intern — ***July 2023 – October 2023***

- Synthesized multi-entity commercial and financial datasets using Python and Power BI to extract strategic business insights for the Consulting Director.
- Constructed financial benchmarking visualizations and strategic advisory decks presented to high-level corporate clients to inform business restructuring.

BERKELEY HAAS UNIVERSITY OF CALIFORNIA — **Kolkata, India**

Research Financial & Data Analyst Intern — ***June 2022***

- Advised research project leadership on data management architectures and software tools for tracking research grant allocations and data collection resources.

REPRESENTATIVE PROJECTS

Custom Financial Intelligence & Forecasting Platform — **Python, JavaScript, CSS, HTML**

- Architected a custom financial intelligence platform automating real-time revenue, project ROI, and capital yield calculations.
- Developed a predictive financial forecasting engine utilizing historical trend data, cutting manual financial report generation workload by 70%.

FinPulse – Institutional FX & Macro Intelligence Terminal — **React, Chart.js, ECB API, Python**

- Architected an institutional-grade FX intelligence terminal tracking 30+ reserve currencies with live European Central Bank (ECB) benchmark rates.
- Engineered a synthetic peg engine for UAE Dirham (AED) with procurement drift risk modeling, SMA-7 moving averages, and 1-click CSV export.

EDUCATION

BENNETT UNIVERSITY — **Greater Noida, India**

Bachelor of Technology (B.Tech) in Computer Science & Engineering (Data Science) — CGPA: 9.0 / 10.0 — ***October 2020 – July 2024***

Leadership & Activities: Event Head, GeeksforGeeks Bennett Chapter (Corporate Partnerships & Tech Events); Project Management, Enactus.
