PROFESSIONAL SUMMARY

Data Analyst with 2.5+ years of full-time enterprise experience and high-impact analytics research experience at NUS and UC Berkeley. Certified Microsoft Power BI Data Analyst (PL-300) specializing in automated ETL pipelines, scalable data architectures, and executive dashboards. Proven expertise in synthesizing multi-source datasets using Python, SQL, and Power BI to ensure 100% data integrity, reduce reporting latency by 50%, and empower executive decision-making.

TECHNICAL SKILLS & CERTIFICATIONS

Languages & Databases: Python (Pandas, NumPy, Scikit-Learn), SQL (PostgreSQL, MySQL), Power BI (DAX, Power Query), Tableau, R Studio, Bash, Git.
Data & Pipeline Architecture: ETL Automation, Data Modeling, Data Cleaning Pipelines, Exploratory Data Analysis (EDA), Frappe / ERPNext, Schema Design.
Business & Analytics: Variance Analysis, KPI Dashboards, Statistical Analysis, Trend Forecasting, Process Automation (n8n), Operational Reporting.
Certifications: Microsoft Certified: Power BI Data Analyst Associate (PL-300) | Harvard: Data Science Modules | IBM: Data Science Tools | NVIDIA: CUDA Python.

PROFESSIONAL EXPERIENCE

FAATEH REAL ESTATE — **Dubai, UAE**
Data & Analytics Specialist (FTE) — *March 2024 – Present*

- Orchestrated the end-to-end data migration of legacy financial and operational records to an enterprise Frappe/ERPNext system, maintaining 100% data integrity and reducing cross-departmental reporting lag by 50%.
- Engineered dynamic, automated Power BI dashboards connecting real-time operational datasets, identifying 100% of variance anomalies and operational cost-saving opportunities.
- Developed custom Python automation scripts to streamline daily data reconciliation and monthly forecast models, saving 20 hours of manual data wrangling per week.
- Formulated predictive data models across portfolio assets to guide leadership on capital allocation, resource utilization, and investment performance trends.

UC BERKELEY — **Remote**
Research Data Analyst Intern — *January 2024 – March 2024*

- Collaborated with academic research teams to deliver remote, scalable data management solutions and architecture support over large-scale datasets.
- Conducted deep-dive statistical analysis and exploratory data modeling to validate research hypotheses across multi-dimensional empirical data.

DELOITTE — **Kolkata, India**
Strategic Analytics Intern — *July 2023 – October 2023*

- Synthesized multi-dimensional, complex client datasets using Python and Power BI to build interactive executive dashboards for the Consulting Director.
- Performed exploratory data analysis (EDA) and quantitative modeling to bridge raw data into actionable strategic recommendations for enterprise clients.
- Constructed interactive drill-down reports analyzing commercial market share trends to support strategic client pitches.

NATIONAL UNIVERSITY OF SINGAPORE (NUS) — **Singapore**
Data Analytics & Preprocessing Intern — *June 2023 – July 2023*

- Collaborated with faculty and industry researchers to engineer practical data analytics solutions for the education sector.
- Conducted rigorous data preprocessing, feature normalization, and pipeline engineering, ensuring high-fidelity data feeds for analytics architectures.
- Engineered automated data validation checks to filter corrupted records, increasing data input quality by 25%.

KEY PROJECTS

Financial & Operational Intelligence Platform — Python, JavaScript, SQL, HTML/CSS

- Architected a full-stack analytics platform automating real-time revenue, project ROI, and performance calculation from decentralized datasets.
- Implemented an automated historical data forecasting engine that reduced manual team workload by 70% and enabled high-fidelity executive forecasting.

UrbanMetric – Real Estate Geospatial & Spatial Catchment Engine — Leaflet GIS, OpenStreetMap, Chart.js, Python

- Engineered a spatial analytics platform computing pedestrian transit catchment buffers (500m-2000m) and distance decay impedance models.
- Formulated a 5-dimension radar scoring model (Transit, Commercial, Retail, Lifestyle, Services) with dynamic POI generation and CSV export.

EDUCATION

BENNETT UNIVERSITY — **Greater Noida, India**
Bachelor of Technology (B.Tech) in Computer Science & Engineering (Data Science) — CGPA: 9.0 / 10.0 — *October 2020 – July 2024*
Leadership: Event Head, GeeksforGeeks Chapter (Corporate Partnerships & Tech Events); Project Management, Enactus.
